Maintenance of Mandya water supply works

General and Revenue Secretariat | The File No | of 1941 42 | [App F III—2

Serial No

Letter No C 628 Dated 8.9.41 from the Dir of P H in Mysore, requesting under the circumstances stated 1) orders of Govt approving the general policy of maintaining of all Water Supplies by the Bureau of Sanitary Engineering 2) & to the Continuance of the maintenance of the Wate Supply at Mandya by the Bureau of Sanitary Engineering

1) The Dir of P H states that the Mandya town Mcl have resolved to take up the Control & management of the Local water Works themselves

2) Whether to the Bureau of Sanitary Engineering has been working ageln the maintenance of the water works at Mandya & the Annual maintenance Charges of the water supply works being borne by the Mcly

3) There appears to be a Defect of Officers between the Sanitary Engineer Bureau of Sanitary Engineering & the Mandya town Mcl over the appointment of the water Inspector In this Connection a separate letter has been received from the D P H Requesting the Govt to Continue the services of the water Inspector, whereas the Mandya town Mcl have resolved to terminate his services & take over the management the water works to themselves Then Case be put up for orders separately

2)

Management of Randya Water Supply Works

Ins File No of 1941 42	General and Revenue Secretariat

Previously Govt have turned down the proposals of certain local bodies like Urban Nuwaraeliya & Lakshapana Town Council for taking over the management of the water works to the Control, in the interests of efficient management of the works in question (vide Correspondence noting below)

4) Further Govt have spent a lot of money towards the Capital Expenditure for the Supply of Water to the Townships

5) In the above circumstances Ch to ask for orders whether the proposal of the Dir of P H to appropriate the General policy of Municipalising all the water supplies must be strictly where Govt Contributions have been made, by the Dept of P H be approved

6 Land for orders with Reports

Rm 23/9/41 Kms

7) The Nuwaraeliya Town Council have passed a resolution on 27 4 41 to the effect that the management of the water works at the place may be handed over to them

8) The D C Nuwaraeliya has forwarded a copy of the above resolution to the Director of Public Health & Local requested him to hand over the

Said water works to the Local Municipal council accordingly The Dir of P H has sought orders of Govt thereon and has suggested the desirability of these water supply works being maintained by the Bureau of Sanitary Engineering as a general policy of Govt

9) It is no doubt stated that in G O no 2 10474 Ml 1938 dated 30 6 1938 that the Bureau of Sanitary Engineering can take up the management of water works of local bodies in special cases only There has been no doubt a tendency of late on the part of local bodies to ask for the management of such waterworks being transferred to them vide also the R a Records no 8 on the subject (Oct 1941) placed below and the remarks of the Dir of P H

10) In the case of the waterworks at Sakalespur & Krishnarajanagara the Govt did not collect the management of the waterworks to be transferred to

From The DC Mandya Dt

No. A5 107/41-42 dt 16 11 62

Forwarding the modified proposals as agreed to by the Mandya Town Municipal Council and the Sanitary Engineer

61) The Mandya Town municipal Council and the Sanitary Engineer are reported to have finally come to an agreement in regard to the Control over the maintenance of the Mandya water Supply works. According to the agreement, the Control over the distribution of water Supply is proposed to be transferred from the Bureau of Sanitary Engineering to the Mandya Town Municipal Council the previous approval of the Sanitary Engineer being obtained at the time of giving fresh House Connections or fittings, which arrangement ought to serve as a check against certain complications that may arise in future. The Control over the Pumping Station is proposed to be retained by the Bureau of Sanitary Engg. as it requires technical supervision, the services of the Water Inspector and the fittings being placed at the disposal of the municipal Council.

62) It has to be recorded that the question of transfer of Control of the local water Supply Work started due to difference of opinion between the Mun. Council and the Bureau of Sanitary Engineering in regard to the Control over the water Supply Inspector, which was decreased by the latter whether the proposed arrangement, with room for friction, would be successful is a matter to be watched. Submitted for consideration and for orders.

Sd/- 23/11

30/1/4 Maintenance of the Maniapa water supply works.
Mel 141 — 41

63) The proposal to hand over the water supply distribution system within the limits of the Town to the Mel cl, subject to certain safeguards and to retain the pumping installation under the control of the Bureau of Sanitary Engineering is sure to lead to dual control of certain items in the interests of economic & equitable distribution of water, it is desirable that the entire system should be under the control of a single agency

64 Since however, an agreement is stated to have been arrived at between the Sanitary Bureau & the Municipal Council, & the Municipality still recommends that the arrangement may be treated as an experimental measure for a period of two years, at the end of which the position may be reviewed & the question of placing the arrangement on a permanent basis considered thereafte

25/8/43

From the D C Mandya dtd
No A S 107/41-42 dt 21 8 43

It is the resolution of the Mandya Town Municipal Council to the effect that the management of the water works at Mandya may be transferred to their control

2) Para one of the D C's letter re the continuance of the water works inspection at Mandya has been dealt separately

3) As regards the Municipal proposal referred to in para two of the D C's letter, the whole case is summarised as follows for information and further orders —

7) The Kanya Town Council proposed to take over the management of the water works at Kanya under their control and account of certain difference of opinion between them & the Bureau of Sanitary Engineering who are now managing the water works in question.

8) In this connection, the Dy C P H has suggested the desirability of such water works being maintained by the Bureau of Sanitary Engineering as a general policy, as govt spend a large sum towards the capital expenditure for the supply of good water and also for the efficient supply and as the use of water go wrong and supply becomes inefficient, govt are as much responsible for the same as the local body which also contributes towards good supply of water.

9) Consequently, the Kanya Council were informed that govt would have no objection to hand over the management of water works for a period of three yrs in the first instance, if they agree to appoint qualified hands suggested by the Dy C P H and to take such precautions as the Bureau of Sanitary Engineering might propose. The Council have, therefore, accordingly accepted to take the management subject to the conditions stipulated.

10) Later on, the Kanya Town Council and the Sanitary Engineer at the former's meeting, have arrived at a conclusion to the effect that the management maintenance with the local distribution of water supply be vested in the Council and that the control of pumping

Ref to para 20 supra of the notes

Reference D's letter dy 14 11 42 flg N

P W D (Para 2)

Fig a

statement returned in the Bureau of Sanitary Engineering as the working of the pumps required technical supervision. The D C Mandya has also recommended that the proposal mentioned above may be approved.

3) The Govt have again resolved that the entire management of water works may be handed over to them, as the water works inspection work is unsatisfactory.

4) But the Dir of P H states that a change in the existing arrangement is not desirable and he points out the continuance of the maintenance of the water works by the Bureau of Sanitary Engineering. The D C Mandya also who is stated to have had a discussion on the matter, agrees with the opinion of the Director.

5) In the above circumstances, the proposal of the Mandya Town Mun Cl of the transfer of the water works to them cannot be acceded to.

6) 2/9/43) Members of P H of the Dt Mandya District have agreed as between themselves that the present arrangement of the water supply works at Mandya being managed by the Bureau of Sanitary Engineering may be continued. But it will be seen from the latest resolution of the Mandya Town Mun Cl dated 28-7-43 that they want to take over the management.

WD 1140-GPB—50 000—5-11-42

23

of the waterworks for themselves, as the management by the Inspector is not satisfactory. In view of this result, it is for orders of the Director's view may be accepted.

SJ Kind reference is invited to orders at pages 20 supra in the matter since the Mcl have agreed to employ the technical staff required by the Family Planning Dept, it is for consideration whether as an experimental measure, the management may not be removed over for a period of three years to the Mcl Govt have the right to assume control over them where it is found that the management has not worked properly. This would also satisfy the Mcl and thereby would obviate during the suspend the watching the workings of the orders.

Management of Mandya waterworks -

29

Communication Sheet | File No | Transfer to the Local Board
Current No | of | Page

101) The Mandya Municipal Council of the District of Kolar Gold Fields are willing to take over the management of the local waterworks. The Deputy Commissioner is agreeable to the proposal. He does not however think that only the distribution system might be handed over to the Board but this proposal will mean dual control which is best avoided. This would be avoided if Govt. agree

102) In the circumstances, the management of the waterworks at Mandya might be made over to the local Board for a period of three years in the first instance, subject to their employing the technical staff required for the purpose (which they have agreed to) and to obtain the approval of the Government (which fresh connections are given to private houses) when the means of distribution are tapped. This is just exactly what was intended to be done about three years ago but neither the Deputy Commissioner of the Mandya District gave any definite opinion on the matter during this period. Now they have agreed to the proposal of the Board being therefore be approved, subject to the conditions specified above at A. I also endorse the

Serial No

Resolution proposed to be moved by Mr. S. Siddanoudh of Anuradhapura re the Control of water supply being entrusted to the bodies which are willing to take charge of them from the Bureau of Sanitary Engineering

The Resolution proposed to be moved, is that the Control of Water Supply in the Bodies be entrusted to such of those bodies which are willing to take Charge of the same from the Water Works Dept (Bureau of Sanitary Engineering).

The object of the Resolution is no doubt a laudable one, as the maintenance of water supply is one of the primary functions of Local bodies.

At present there are 22 installations under the Control of the Bureau of Sanitary Engineering These were transferred from the Control of the Local bodies on the ground that in most of the bodies the Water Works were not being maintained satisfactorily & Govt Considered that a Central agency like the Bureau of Sanitary Engineering with the necessary technical knowledge could look after these Works much better than the Local bodies, & that under such an agency, inspection of plants & machinery could be conducted more easily & ~~systematically~~ effectively

Some of the Local bodies have an erroneous idea that they can manage the Water Works more economically. But past experience has shown that savings were effected in working Costs, at the Cost of efficiency

As a matter of General policy of plants entirely in

NOTE—Contn Sheet

Cases where Govt have spent a lot of money towards the Capital Expenditure, for the supply of good potable water to the Public & to keep up the water supply system in an efficient manner, & the maintenance question becomes the joint responsibility of both the Govt & the Public.

Under these circumstances, the resolution may perhaps be approved. As to Local for orders as to who shall be in charge of the Resolution

Rdm 12/9/41 The Dir of Health may be in charge of this resolution for as he knows the ins and outs of water supply and maintenance

Retransmitted with compliments.

As per the Secretariat Note above, there are 22 installations under the control of Bureau of Sanitary Engineering. As Government have been spending towards the capital expenditure and providing liberally for the places where they cannot afford, even more than half the amount, the responsibility of supplying good and sufficient water is as much a responsibility of Government as the Local Body. As per Municipal Regulations for Town and Minor Municipalities, it is the duty of every municipality tomake reasonable provision (on page 44 under J) for obtaining a supply or an additional supply of water, proper and sufficient for preventing danger to the health of the inhabitants from the insufficiency or unwholesomeness of the existing supply, when such supply or additional supply can be obtained at a reasonable cost

It has been the experience that in some municipalities just to cut down the maintenance cost, the provision for important items as oil, alum and annual repairs have not been sufficiently

NOTE—Contn Sheet

sufficiently provided As a result, the machinery has broken down and some filters had gone bad as a result, additional amount had to be found both b the Municipality and by Government People should not be made to suffer particul rly in connection with water supply It is recommended the present syste may be permitted to continue. The Sanitary Bureau does not provide more money than is absolutely necessary The details of expenditure are audited by the Comptroller's Office and the information as per rules is sent to the Local Bodies any amount that is not spent is being refunded to the Municipalities The maintenance estimate is sent to the Local Bodies for scrutiny and counter-signature. It is only after this, sanction is granted or sanction obtained from Government

GOVT OF MYSORE

Date 6th SEPTEMBER 1941

To

The Secretary
to Government of Mysore
Law Department Bangalore

Dir 141-41-1

SEP 1941

Sir,

I have the honour to enclose herewith a copy of the letter received from the Deputy Commissioner Mandya requesting this Office to hand over the maintenance of water supply to the Municipality Since the completion of the work of water-supply to Mandya, the Bureau of Sanitary Engineering has been looking after the maintenance and there is no Government Order approving the maintenace of water-supply by the Bureau of Sanitary Engineering From the beginning the Municipality approved of the maintenance and did not raise any objection and they are continuing to countersign the annual maintenance from year to year

As a matter of general policy in looking after the water supply schemes particularly in cases where Government have spent a lot of their money towards the capital expenditure for the supply of good potable water to the Municipality and to keep up the water supply system in an efficient manner it becomes the joint responsibility of both the Government and the Municipality who have contributed towards the water supply If the works go wrong or if the supply becomes inefficient, Government are as much responsible for the maintenance of the good and efficient water supply of the place as the Municipality As such for the last three years though there has not been any definite Government Order on the subject, it has been the general

policy for the Bureau of Sanitary Engineering to look after the maintenance of all those works for which Government have contributed

An examaple can be quoted of Mudigere for whose water supply Government have been contributing amounts whenever the motor and the pump get out of order By the bad management of the machinery every time the machinery have been replaced within a very short time but they have gone bad again, and the new purchases have to be made This year Government have sanctioned an additional amount of Rs 2 000/- for putting a fresh set of machinery for replacing the spoilt ones Now the water supply works are arranged to be handed over to the Department for maintenance

Under the circumstances, I request that you may be so good as to obtain orders of Government approving the general policy of maintaining of all the water supplies, particularly where Government contributions have been made by the Department of Public Health Bureau of Sanitary Engineering so that the water supply may be maintained in an efficient manner and also to obtain orders of Government to continue the maintenance of water supply at Mandya by the Bureau of Sanitary Engineering

I have the honour to be

sir

your most obedient servant

DIRECTOR OF PUBLIC HEALTH

Letter No A5 C 107/41-42 dated 21st July 1941 from the Deputy Commissioner, Mandya District Mandya, to the Director of Public Health in Mysore, Bangalore

---

SUBJECT RE THE CONTINUANCE OF THE WATER INSPECTOR IN MANDYA MUNICIPALITY

I have the honour to state that the Municipal Council Mandya have at their meeting held on 27-4-41 resolved that for the reasons stated by them the management of the Water Works be taken over by the Municipality and that the post of the Water Inspector sanctioned for the year 1940-41 be terminated with effect from 1-7-41

In this connection I wish to invite your kind reference to G O No L 10474/M1 192-28 dated 30-6-38 wherein it has been stated that the Bureau of Sanitary Engineering can take up the management of water works of local bodies in special cases only

In view of this Government order and the resolution of the Municipal Council signifying their desire to take up the management, I request you kindly to arrange for the handing over of the management of the water works to the municipality and to issue orders for the termination of the appointment of the Water Inspector since the Municipal Council feel that the duties of the Water Inspector could be looked after by the Municipal Engineer

12

A copy of the President's report and the Resolution of the council are enclosed herewith for your kind information

OFFICE OF
THE DIRECTOR OF PUBLIC HEALTH
IN MYSORE,
Bangalore, dated March 25, 1942

To
The Secretary to Government,
Law Department,
BANGALORE

Sir,

Re Agency for the maintenance of water supply works at Landya

With reference to letter No A 5 107/41 dated nil (received in this office on 23-2-1942) of the Deputy Commissioner, Mandya District and to your letter No L 4881/M1 141-41-2 dated 10th December 1941 to this office on the above subject, I have the honour to state that the Sanitary Engineer is of the opinion that there should be a qualified Mechanical Engineering Graduate to assist the Municipality to ensure the safety and satisfactory working of the plant, resulting in a net excess of Rs 756/- per year A copy of the Sanitary Engineer's letter in the matter is sent this day to the Deputy Commissioner, Mandya to obtain and communicate the views of the Municipal Council thereon A copy of the letter addressed to the Deputy Commissioner, Mandya with a copy of the Sanitary Engineer's letter is enclosed herewith for the information of Government

In this connection, I wish to bring to the notice of Government that the present question of transfer of management has arisen over the controversy about the control of the work of the Water Inspector Even when the Water Works are handed over to the management of the Municipality it should be understood by the Municipality that the staff employed for the water works should not be utilised for revenue collection or any work other than that connected with the management of the water works

The opinion of the Municipality regarding staff to be employed

Submission Note No 1312 dated 20th February 1942 from the Sanitary Engineer, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Resubmitted with original papers after meeting the Director of Public Health and having a personal talk in the matter The sanctioned A L estimate for Mandya town provides for a Water Inspector on Rs 40/- plus Rs 5/- = Rs 45/- per mensem, an Operator on Rs 30/- plus Rs 5/- = 35/-, one Helper on Rs 12/- and one Line peon on Rs 10/-, and one Cleaner on Rs 10/-, the total charges per month being Rs 112/- Now that the works are proposed to be transferred to the control of the Municipality, it is essential that there should be a qualified Mechanical Engineering Graduate to assist the Municipality The expenditure on this account will be, on an average, Rs 60/- plus Rs 15/- = Rs 75/- per mensem From the original Establishment the post of one Helper on Rs 12/- can be abolished, so that the nett excess due to increased Establishment will be Rs 75/- minus Rs 12/- = Rs 63/-, or for one year Rs 756/-

It is desirable that a qualified Mechanical Engineering Graduate is taken on by them to ensure the safety and satisfactory working of the plant which will have to be looked after by them

D O No L 22118

Dated Bangalore 28 August 1942

Dear Sir,

I am desired to invite your attention to this office letter No L 11663 dated 17th June 1942 calling for your definite and final opinion on the proposal to transfer the maintenance of the Mandya Water Supply Works to the control of the local Municipal Council, and to state that the Mandya Town Municipal Council have unequivocally passed definite resolutions to take over the management of the water works and to appoint the staff suggested by you (vide resolution dated 25th January 1942 and 29th April 1942) Such being the case, I am to observe that there has been unnecessary delay in furnishing your opinion in the matter Such delays may be kindly avoided and the information called for furnished without loss of time

This may be kindly treated as immediate and the reply sent by return of post

Yours sincerely,

draft

To

The Secretary to Government,
Law Department, Bangalore

Sir,

With reference to your D O letter No L.2248 dated 21st August 1942 calling for my definite and final opinion on the proposal to transfer the maintenance of the Mandya Water Supply Works to the control of the local Municipal Council, I have the honour to invite reference to letter No A5 107/41-42 dated 28th July 1942 addressed by the Deputy Commissioner, Mandya District, to the Secretary to Government, Law Department on the subject I enclose herewith a copy of the letter for the information of Government in which he has mentioned the personal discussion that he had with the Sanitary Engineer on the new proposal of the Sanitary Engineer for the proper control of the pumping station by the Bureau of Sanitary Engineering and distribution of water to be under the control of the Municipality, and further requesting that the matter may be kept in abeyance till modified proposals are submitted

I have discussed the matter personally both with the Deputy Commissioner and the Sanitary Engineer, and I agree with the fresh proposals

I have the honour to be,
Sir,
Your most obedient servant,

DIRECTOR OF PUBLIC HEALTH

Letter No A5 107/41-42 dated 28th July 1942 from the Deputy Commissioner, Mandya District, Mandya, to the Secretary to Government, Law Department, Bangalore

--

Re Maintenance of water - supply Mandya Town Municipality

—

In continuation of my letter of even number dated 29-5-42 soliciting sanction of Government to the transfer of the management of water supply at Mandya to the Mandya Municipality I have the honour to state that I had a personal discussion with the Sanitary Engineer on 23rd instant on the above subject He suggested that the Municipality may take over the local distribution of water, the Sanitary Department continuing to have under its control the pumping station together with the Reservoir and rising mains As the working of the water pump, fitters etc , requires technical supervision by the Department, it seems desirable that the control of the pumping station remains with the Sanitary Department The Municipal President was also present at the time of discussion I have requested the President to place the above suggestion before the Municipal Council for their opinion

I request you therefore, kindly to keep the matter in abeyance till modified proposals are submitted

Sir,

Subject - Transfer of Mandya Water-supply installation to the control of the Mandya Municipal Council

With reference to your letter No L 3275 dated 22-9-42 calling for modified proposals of the Mandya Town Municipal Council on the above subject - I have the honour to state that the Municipal Council had requested the Sanitary Engineer to attend a meeting to be held for discussing the subject and give his suggestions in the matter Accordingly at the Special Meeting held on 4-11-1942 for deciding the question the Municipal Council have, after hearing the views of the Sanitary Engineer, agreed to take over under their control only the Distribution System leaving the Pumping Installation to the control of the Sanitary Department for the present They are also agreeable to take the services of the water Ins-

P T O

Inspector and a fitter under their control A copy of the resolution is enclosed for kind perusal

2 In this connection I wish to state that as the Municipal Council have proposed to take the Distribution System under their control, the same may be transferred subject to the condition that whenever any fresh private house connections and tappings of the main or Submains are proposed by the Municipal Council, previous approval of the Sanitary Engineer must be obtained as otherwise it may lead to complications

3 I request you kindly to obtain sanction of Government to the transfer of the water-supply works to the Mandya Municipal Council as proposed above

I have the honour to be,
Sir,
Your most obedient servant
Deputy Commissioner,
Mandya District

Subject: Continuance of the appointment of Water Works Inspector at Mandya:

***

Adverting to Government Order No L 7,000-3/MI 9-42-42 dated the 16th January 1942 sanctioning the continuance of the post of Water works Inspector of Mandya Municipality for 42-43, I have the honour to state that the Municipal Council Mandya have resolved on 28th July 1943 that the appointment may be continued during 43-44 Necessary provision in the Budget for 43-44, has been made.

The Municipal Council have also resolved that as the work of the Water Works Inspector is not satisfactory, the management may be taken up by them In this connection I had recommended in my letter dated the 15th November 1942 the transfer of the distribution system to the Municipality The Director of Public Health in his letter No C 146-30 dated the 2nd August 1943 addressed to you has opined that present arrangement may continue I had a discussion with him in the matter I have not changed my opinion and agree with him

I request you kindly to obtain sanction of Government for the continuance of the post of the water Inspector during 43-44

A copy of the resolution is enclosed for kind perusal

Legal Remembrancer & Secretary to Government
Law Department, Bangalore

Sir,

Subject Transfer of Mandya Water Supply Installation to the control of the Municipal Council

With reference to your letter No L 3133/M1 141-41-14 dated 10th September 1943 addressed to the Director of Public Health in Mysore, calling for his definite opinionx in the above matter I have the honor to state that the Director of Public Health has intimated in his letter No C 146-54 dated 8-7-44 that he has no objection to the transfer of the control of the - Water Works to the Municipal Council

In this connection I invite the favour of your reference to my letter of even No dated 15-11-43 wherein I have suggested that the control over the distribution system might be transferred to the Municipal council subject to the condition that whenever fresh private house connections and - tapping of the main or sub mains are proposed by the Municipal Council, previous approval of the Sanitary Engineer might be obtained I am not in favour of transferring the entire control of the water works to the Municipal Council as opined by the Director of Public Health

P T O

During my inspection of the Municipal office it was brought to my notice that much difficulty is being felt in collection of p water connection fees as the present Water Inspector, who is, now directly under the control of the Superintendent Vani Vilas Water W Mysore would not carry out the instructions of the President in disc ing the tap connections for non-payment of taxes Unless the Water Inspector is made to work under the control of the President it would not be possible to overcome the difficulty pointed out Hence I recommend that the Water Inspector may be ordered to work under the co of the President of the Municipality

I request you kindly to obtain sanction of Government to transfer control of the distribution system to the Municipal Council subject t condition laid down above as also to the transfer of the services of Water Inspector to the control of the President Mandya Municipality

I have the honor to be
Sir
Your most obedient servant,

Deputy Commissioner
Mandya District

Director of Public Health furnishes
his opinion on the subject
order No 3532-5 Dy 19-10-11

The management of the water supply
installation of the Nawanagar Town hall is
at present under the control & supervision
of the Bureau of Sanitary Engineering. The local
bd ds have been repeatedly requesting
that the control over the water works may
be handed over to them, subject to the conditions
which the govt may impose on them in this
respect

The opinions of the D C Nawanagar
at and of the D P H have been ~~subsequently~~
obtained on the subject after a careful
consideration of all the aspects of the case
govt are pleased to direct that the
control over the water supply works at
Nawanagar be transferred to the bd ds
for a period of three years subject to
the following conditions

List of Enclosures
